## INDUSTRY EXPERIENCE

### Co-Founder // Chief Operations Ryan

#### Ryan Meetup

📅 February 2023 - Present

📍 Brooklyn, NY (Remote)

React.js   Tailwind CSS   Next.js   TypeScript   Event Planning

- Co-founded and scaled a global not-for-profit community spanning 12+ chapters, 45+ countries, and 40+ events, reaching thousands of attendees worldwide.
- Drove sustained social media growth and visibility, building an audience of 100K+ online followers and generating 10M+ monthly impressions across all platforms.
- Led strategy, logistics, and operations for free, large-scale public events across the US while under tight financial constraints.
- Enhanced performance and search engine visibility through strategic SEO improvements, including structured metadata and targeted keyword strategy — resulting in a noticeable uptick in organic traffic.

### UI Engineer II

#### CrowdStrike

📅 September 2022 - Present

📍 Brooklyn, NY (Remote)

React.js   Tailwind CSS   Next.js   TypeScript   Playwright

- Led UI development for Raven Next platform rebuild, delivering 25+ features that modernized microservice management workflows and reduced support tickets through enhanced self-service capabilities for 1,000+ engineers.
- Developed comprehensive command palette functionality enabling unified search and navigation across microservices, teams, and people—establishing consistent discovery patterns organization-wide.
- Built real-time dashboard suite including microservices monitoring, platform alerts, changelog tracking, team activity feeds, and more to centralize critical operational data at a glance.
- Improved deployment reliability and self-service capabilities by implementing live status queries, error handling, and role-based access controls for critical workflows.

### Web Engineer III

#### American Express

📅 August 2021 - September 2022

📍 New York, NY

React.js   Chakra UI   Tailwind CSS   Next.js   TypeScript

- Redesigned LoungeBuddy.com's homepage using modern technologies like Next.js and Tailwind CSS, improving performance, maintainability, and developer experience.
- Built a full-stack Promo Code Tool leveraging React.js, TypeScript, Node.js, and Express, enabling seamless promo code creation, scheduling, and metric tracking.
- Streamlined customer support workflows by introducing a system to manage promo codes and monitor usage, reducing manual overhead.
- Developed reusable UI components aligned with the LoungeBuddy Design System, accelerating development across all web properties and ensuring design consistency.

## EDUCATION

### B.S. Software Engineering Minor in Mathematics

#### University of Nebraska-Lincoln

📅 August 2017 - May 2021

Cumulative GPA: 3.64 / 4.00

## SKILLS

React.js, Next.js, TypeScript, Tailwind CSS, Chakra UI, Material-UI, Playwright, React-Query, Recoil.js, Contentful, Sanity.io, Node.js, Python, Git, GraphQL, Event Planning, Community Building

## PROJECTS

### Currently Working With

React.js   Next.js   TypeScript  
Tailwind CSS   Contentful   GraphQL

### Raven Next

#### CrowdStrike

- Building the next evolution of CrowdStrike's internal developer platform.

### RyanMeetup.com

#### Ryan Meetup

🌐 ryanmeetup.com

- Our central hub for all things Ryan. Check out upcoming events, previous press coverage, Ryan Meetup around the world, and much more.

### Tailwind Portfolio

#### Personal Project

🌐 ryanle.dev

- Personal portfolio page built with React.js, Next.js 14, Tailwind CSS, TypeScript, Contentful, and more.

### CrowdStrike Ecommerce Store

#### CrowdStrike

🌐 store.crowdstrike.com

- I worked on building out shopping carts, headless checkout, FTC compliance, and all things UI-related.
